

Health & Safety Protocol 2022

Protect Yourself

Protect Others

Prevention & compliance with the protocol

Have a great holiday!

The 5 key points of your stay with FIL :

PCR or antigen tests and/or vaccination

Hand washing or use of alcohol-based hand sanitizer

Correct circulation around buildings

Physical distancing

Health Monitoring

- The person in charge of the healthcare protocol within the organisation = is the healthcare assistant and point of contact regarding covid.
- Connecting with families and providing information before the trip.
- Preventive measures and compliance with the protocol during the trip.
- Regular checking of temperature.
- Detect / contain / isolate in the event of COVID-19 cases.
- Infirmary rooms for quarantine.

On the premises

- Deep cleaning of all facilities before each stay and between groups.
- Cleaning twice a day (with gloves) of the facilities being used.
- Disinfecting with anti-viral products of high touch surfaces (door handles, surfaces, bathrooms, floor, teaching materials and games).
- Several water access points for hand washing with soap (for 30 seconds) with alcohol-based gel also available (to be used sparingly with minors). Paper towels used for hand-drying.
- Aeration of bedrooms for at least 15 minutes every day.
- No use of air-conditioning or fans.
- Arrival and departures times of participants to be staggered over a longer time period and no access to the premises for parents or accompanying persons.
- Display of Covid-19 prevention notices
- Circulation flow in the buildings to be specified.
- More restricted use of the buildings and prioritisation of outdoor activities.

Bedrooms / Bathrooms

- Bedrooms of 4 to 6 people, maximum 4 children per bedroom when possible.
- Minimum of 1m distance between 2 bunk beds and head to tail layout.
- Belongings to be stored safely in the cupboards provided (1 per child).
- 1 bathroom per bedroom and one child at a time in the bathroom.
- Restricted access to bedrooms between 10 am and 1 pm and between 3 pm and 5 pm.
- Disinfection and use of virucide for high touch surfaces (door handles, light switches, taps, toilet seats, toilet paper dispensers, toilet brushes) twice a day.
- Bed linen to be washed at 60°C for 30 minutes minimum between trips.

Meals

- Meals eaten outside where possible arranged in small groups.
- 10 people maximum per table with spacing of 1m between each table and 2m between each group.
- Hand washing before and after each meal and snack.
- 2 people to lay the table (this changes every meal!) having properly washed their hands beforehand and used alcohol gel!
- One persons to serve the others (this changes every meal!)! having properly washed their hands beforehand and used alcohol!
- Use of personal drinking bottles (washed by the child) and each child uses only their own utensils and plate during the meal.
- Disinfection and use of virucide of the tables and chairs after each meal.
- Several different serving times as required

Activities/ Workshops

- Groups remain the same throughout the trip and for each activity/workshop where possible.
- One room per group for the duration of the trip.
- Physical distancing of 1m where possible.
- Individual equipment used for each child during workshops.
- Hand washing before/after the break during workshops and activities.
- Provision of alcohol gel.
- Disinfection of tables between each group.
- Aeration if indoor spaces.

Sport

- Sports and organised games to be organised respecting the relevant rules and hand washing before and after.
- The distance between participants must be 2m minimum.
- The removal of masks may be permitted for certain sports if necessary.

Pool

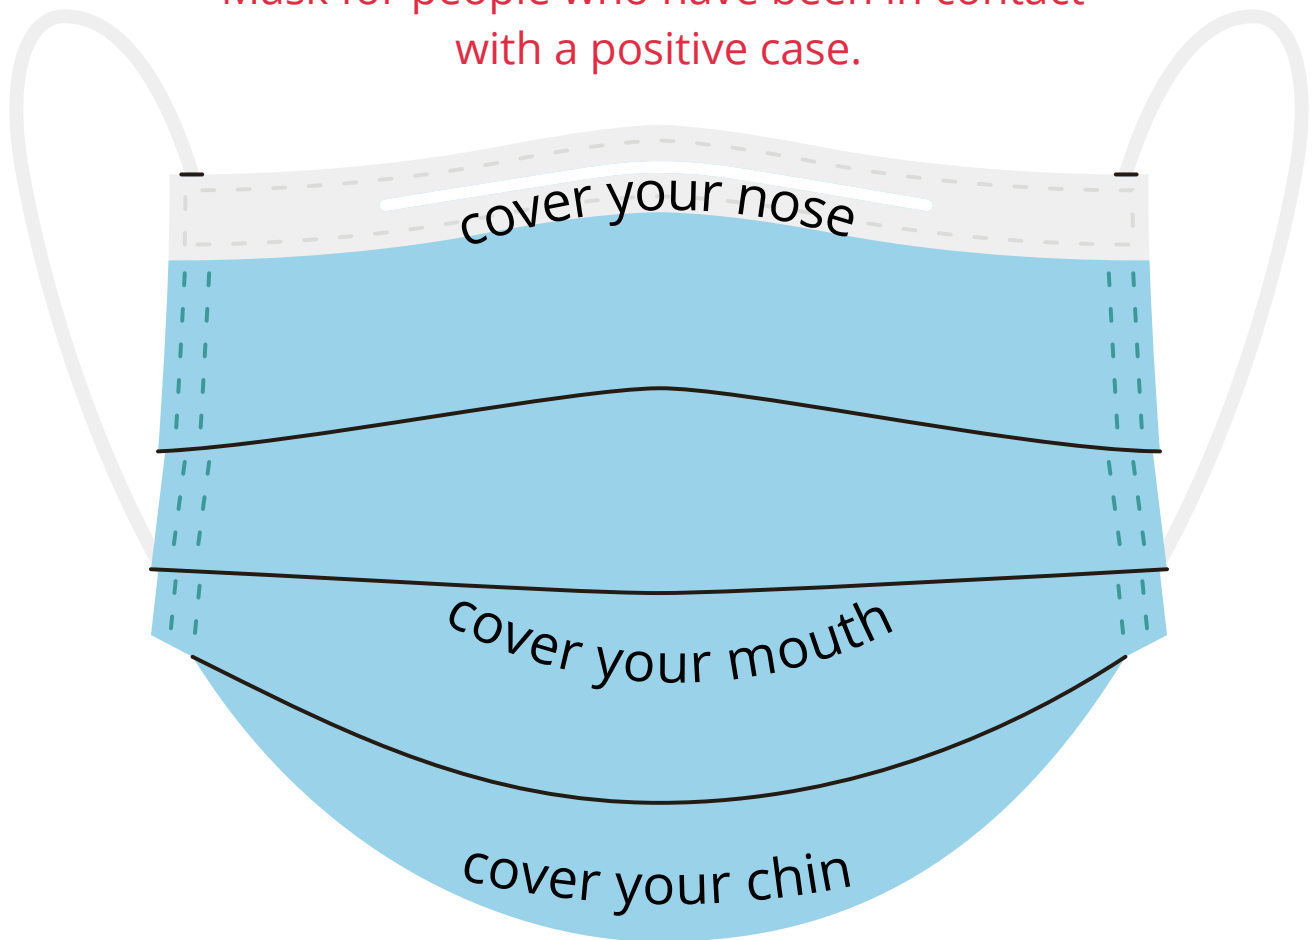

- Towels to be hung up on the external fence.
- Everyone has their own turn in the shower.
- Respect of the 1m distancing rule (whilst queueing for the shower or pool). Correct circulation flow in the pool and surrounding enclosure (entrance and exit to different places)

Transport

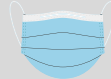

- Provision of alcohol gel in all vehicles used.
- Vehicles to be aired continuously during transport if possible (windows open).
- The same group of children in each vehicle and the same driver.
- Cleaning and disinfecting of the vehicles after use and between groups.

Mask for people who have been in contact with a positive case.

Mask: general public «filtration efficacy higher than 90% » or surgical standard.
10 masks per child provided by the parents or those legally responsible.

Before your trip		FAMILLIES	In the suitcase
